DRIVING DIGITAL SUCCESS THROUGH INNOVATION

Empowering Your Digital Future with Transformative
Digital Services

YOUR RELIABLE DIGITAL PARTNER TO CHAMPION CHANGE

Leveraging our transformative technology services, we help organizations architect and implement effective digital strategies. With decades of expertise in building advanced digital technologies, we empower our clients to become market leaders in their respective industries.

MSYS TRANSFORMATIVE DIGITAL SERVICES

DIGITAL ENGINEERING SERVICES

- AI/ML-powered Intelligent Capabilities
- Gen AI
- Modern Web and Mobile Apps
- Data Engineering
- Big Data Analytics
- Robotic Process Automation
- MSys UI/UX Design Studio
- IoT

FINTECH SERVICES

- Paytech / Payment Processing
- Digital Wallets
- Loyalty
- Digital Asset Management
- RegTech
- Risk and Fraud Analysis

CLOUD-NATIVE SERVICES

- Container-native Engineering
- Hybrid Cloud Computing
- Cloud Migration
- Cloud Governance
- Cloud IaaS/PaaS/SaaS
- Zero Trust Security

DIGITAL SUCCESS STORIES

■ UNIFIED DIGITAL ASSETS PLATFORM

MSys experts built a user-friendly platform for a U.S.-based FinTech company to enable the buying, selling, and storing of various cryptocurrencies in a single platform.

■ IMPROVED EFFICIENCY WITH RPA AUTOMATION

MSys collaborated with a leading self-service commerce company to automate activation processes for vending machines. An AI-powered RPA automation reduced the activation time from 5 to 2.5 minutes, resulting in thousands of man-hours savings.

■ REDUCED COST WITH AI-POWERED INVENTORY MANAGEMENT

MSys developed an AI model that analyzes warehouse images to identify empty spaces and recommend optimal product placement. This collaboration reduced inventory management costs by 20%.

■ REDUCED DOWNTIME WITH PREDICTIVE ANALYTICS

MSys developed a predictive analytics and monitoring platform that uses AI to analyze real-time appliance data to predict failure, resulting in a 30% decrease in downtime.

“MSys Technologies helped us revolutionize how investors make the most of their digital asset investments. Extensive testing and quality assurance contributed to the application being ready for launch within 7 months and helped us save ~30% of our initial projected budget”

– CTO,
Leading US FinTech Company.

MSYS STORAGE AND CLOUD-NATIVE ENGINEERING SERVICES

Datacentre Core

Virtualization

Cloud

MSys Transformative Services unlocks your full business potential. Explore the A-Z of our storage and cloud-native engineering services that help enterprises optimize business performance.

- ✓ Container-native Engineering
- ✓ SaaS-ifying Application(s)
- ✓ Infrastructure Automation
- ✓ API Automation
- ✓ Software/SDN Engineering Storage
- ✓ Observability

- ✓ DevSecOps
- ✓ Cloud Ops
- ✓ Site Reliability(SRE Engineering)
- ✓ Ecosystem Integration
- ✓ Quality Engineering
- ✓ Product Sustenance

SNVC SUCCESS STORIES

■ REDUCTION IN DOWNTIME INCIDENTS WITH AIOPS

MSys deployed an AI-native solution to monitor and manage infrastructure health through advanced AI and ML analytics, resulting in near-zero downtime.

■ DECREASE IN INFRASTRUCTURE COSTS WITH DYNAMIC RESOURCE

MSys engineered an Edge-to-Cloud platform with pay-per-use access to cloud resources. This resulted in improved resource utilization and reduced infrastructure costs.

■ SINGLE-CLICK TO BUSINESS INSIGHTS

MSys built an automated data pipeline for processing big data using advanced cloud technology. It offers detailed insights with dynamic visualization and is accessible remotely without manual intervention.

MSYS IS NOW A BOOMI & SALESFORCE PARTNER!

MSys Technologies is now a Boomi and Salesforce partner, marking a significant step in its mission to deliver transformative digital solutions. Our services are now paired up with Boomi's and Salesforce's powerful platform to enable connected experiences, streamline operations, and tap into the full potential of their data.

-
- 1 Accelerate Digital Transformation
 - 2 Enable Intelligent Integrated Experiences
 - 3 Unlock the Full Potential of Data
 - 4 Enhanced CRM Capabilities
 - 5 Data-driven Insights
 - 6 Navigate Modern Integration Challenges
- 

WHY MSYS

01

Accelerate, transform, and utilize our proven RTG (Run, Transform, and Grow) framework, backed by over a decade of unparalleled technology expertise.

02

Catalyze growth and innovations with high-skill talent, R&D labs, and global capability centers.

03

Manage the complexity of the dynamic technology landscape across cloud, libraries, databases, frontend, & backend technologies to enable customers' continued success.

04

Tight collaboration and deep understanding of customers' products, culture, and ecosystem.

05

Drive innovation faster for new products with transformative product engineering services.

ABOUT MSYS

MSys Technologies is a reliable partner for Software Product Engineering Services and Digital Transformation projects for its Fortune 100, Silicon Valley-based ISV Unicorns, and Technology Enterprises clientele. With next-gen technologies and outcome-based pricing, we help organizations accelerate digital and business transformation journeys.
